Innovation In Carbide Burr Technology

The **All New** and totally unique Corner Radius Burrs demonstrate Procut's continued commitment to carbide burr innovation.

By incorporating a **Corner Radius** onto the top of a conventional Cylinder (A Shape) Carbide Burr, a new dimension is introduced to the conventional carbide burr.

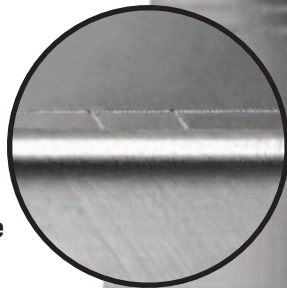

The **Corner Radius Burr** is available as a standard double cut (Cut 6) for general purpose use, which improves operator control and reduces the size of chips.

The Corner Radius Burr Range		
3.0mm Shank		
Head Dia. mm	Head Length mm	Part Number
3.0	14.0	A30314-6 RAD
6.0mm Shank		
Head Dia. mm	Head Length mm	Part Number
6.0	18.0	A60618-6 RAD
8.0	19.0	A60820-6 RAD
10.0	19.0	A61020-6 RAD
12.0	25.0	A61225-6 RAD
15.0	25.0	A61525-6 RAD

The features of the **Corner Radius Burr's** unique geometry provide the following benefits:

- Improves flute strength
- Improves burr control
- Prevents digging into work piece
- Produces radius finish
- Reduces flute chipping

**For Your Safety
Always Remember
to Wear**
